Highlights Of Apulia - Bari And Ostuni

This action-packed day ticks off a duo of Apulia's best bits. First up, you'll tour Bari Vecchia, the historical heart of Bari. It's a spiderweb of narrow lanes, punctuated with views of the inky-blue Adriatic. You'll pass sights like the Norman Castle and the 12th-century cathedral, before boarding a coach and making our way to Ostuni. This 12th-century town was built by the Normans, and has a downtown district filled with whitewashed, flat-roofed houses. These unique buildings are stepped into a hillside, linked by tiny roads, narrow staircases and arches.
