TOUR NAME

Trani & Olive Oil Tasting

On this tour you'll head to Trani, known as the Pearl of Puglia. A walking tour of the city will lead you through its historical heart, passing the castle, the Gothic Palace of the Doges of Venice, and the 12th-century cathedral, which stands tall next to the sea. You'll finish up with a wander along the smart promenade overlooking the marina, before we head to an old olive mill. You'll tour the mill with a guide, and then have a chance to taste the local olive oil and nibble a selection of Puglian delicacies.
