## BARI

PORT

BARI

TOUR NAME

***Bari Bike Tour***

This bike tour lets you explore Bari's ancient and modern sides. Starting at the port, you'll pedal along the shore, around the remnants of the Medieval walls that once surrounded the old town. Making your way into the new part of the city, you'll join the Lungomare Nazario Sauro, a seafront promenade, en route to a little fishing village called Torre a Mare. You'll break here for a drink and a wander around. Afterwards, you'll turn around and head back towards Bari, stopping at Pomodoro Beach for a quick dip. Then it's on to the walled old town, where you'll zig-zag your way through narrow, arch-topped lanes. Here, you'll have some time to see the city's sights, including the Byzantine castle and the famous Basilica de San Nicola. This holy place is dedicated to St Nicholas, who inspired the modern-day Santa Claus.
