TOUR NAME

*Italian Shopping & Views of Florence*

Drive towards Florence passing through the olive groves and vineyards of the Tuscan countryside. View Florence and the Arno Valley from a scenic overlook at Piazzale Michelangelo before you enter the city. Your escort will point out Florence's best sights and major buildings, churches and squares. From a distance you'll see the Ponte Vecchio—the famous 14th-century bridge spanning the Arno River—and the Piazza del Duomo. This open space lies in front of the fourth-largest church in the world—Brunelleschi's masterpiece in green and white marble capped with a terra cotta tile dome. The Duomo (cathedral) itself was consecrated in 1436. Enjoy free time to stroll to the nearby Piazza del Duomo. Florence is renowned for handmade leather goods and shopping is at the top of your agenda, so you will now visit a leading leather factory to shop for jackets, purses, belts and other items.
