## MESSINA

PORT

MESSINA

TOUR NAME

*Panoramic Slopes of Mt Etna*

Leaving the port of Messina you will head towards the lovely village of Zafferana, driving south on the freeway through a fertile paradise of green vineyards and golden citrus groves. Passing through Santa Venerina village, the scenery becomes increasingly forbidding as you approach the park of Mt Etna. At 1,800 feet above sea level, this small village boasts enchanting, wild scenery. A refreshment will be served at a local hotel before you enjoy panoramic views of the Sicilian coast that was overwhelmed by an eruption 300 years ago. The volcano has erupted more than 130 times, killing more than a million people. The volcano dominates the entire coast of Sicily, and its mass outrivals all of Italy's other mountains.
