## MESSINA

PORT

MESSINA

TOUR NAME

*Sommelier-Guided Wine Tasting*

Leaving the port of Messina you'll head to the San Placido Calonerò Abbey. Take some time to explore the old cloister, the vineyards and the small museum before you venture inside to start your sommelier-guided wine tasting. Your mini-course will start with some information about the method of producing sparkling wines—the classic and the Charmat—followed by some tips on the basic methods of tasting. You will learn how to fully appreciate three Sicilian wines, including a red wine from the Faro DOC, a white wine from the Mamertino DOC, and a dessert wine from the Malvasia Delle Lipari. The sommelier will encourage you to use many of your senses—visual, olfactory and taste, as well as thinking about the 'mouthfeel' of the wine. Sample some local products from Messina province, as you taste the wines.
