TOUR NAME

Naples Bike Tour

This tour is for guests that love sports and a bicycle tour is one of the best ways to get close to the action. The trip starts when you pick up your bike and follow your guide into the city centre. Here, you'll take to the quieter side roads and pedestrian areas, so you won't need to worry about heavy traffic. During your tour you'll clap eyes on all the main landmarks, like the Castel Nuovo, Castel Sant' Elmo and the Teatro San Carlo. Topping everything, though, is the Piazza del Plebiscito, a semi-circular square enclosed by colonnades, graceful palazzos and the impressive San Francesco di Paola church. You'll then see a side of Naples many tourists don't, riding to the outskirts to enjoy amazing views over Mount Vesuvius and the islands of Capri and Ischia on the horizon. Rounding everything off is a ride to the Castel dell'Ovo area, where there's time to stop for a drink before cycling back to ship.
