## PALERMO

PORT

PALERMO

TOUR NAME

*Palermo's Gardens*

Discover the beautiful gardens of Palermo with this unusual tour. Firstly depart from the pier and have a short sightseeing tour of the town with its magnificent monuments. After that you will arrive at Villa Malfitano, an oasis in town with its luxuriant garden. The villa, constructed in the late 19th century by the archaeologist and botanic Joseph Isaac Whitaker, is surrounded by gardens containing plants from all over the world. There is a marvellous variety of tropical plants, including the rare blue palma *Butia Capitata*. The tour continues to the Botanical Garden "Villa Giulia". Founded in 1875 as a project by Leon Dufourny and Venanzio Marvuglia, the botanical gardens are amongst the most interesting in Europe thanks to their richness and the abundant examples derived from a wide variety of vegetation types which grow throughout the world.
