TOUR NAME

The Caves Of Postumia

On this tour, you'll head underground into Europe's most famous caves. To get there, you'll hop on a one-hour road trip into neighbouring Slovenia, home to the millennia-old Caves of Postumia – otherwise known as Postojna Cave. An open-air train will take you deep into tunnels and caves that have been carved out of the rock by ancient underground rivers. You'll fetch up in the Big Mountain cavern, where you'll meet your guide. The stars of this walking tour are the dry galleries. Ghostly stalactites take the shape of everything from dripping icicles to dangling strips of spaghetti down here. Just a tip – it can be damp and chilly in the caves, so remember to pack a waterproof coat.
