TOUR NAME

The Prosecco Wine Route

Leave the ship by coach this afternoon and relax for the one-hour drive to Treviso. Here, in this beautiful part of the exuberant Marca region, century-old enological traditions have deeply influenced the landscape and spirit of this enchanting area. A pleasant drive among the hills reveals vineyards and quaint villages. You will stop here to visit a leading Prosecco winery. In the wine cellar, you will hear all about the production method and visit the underground cellars. Your guide will tell you how these cellars were used during World War I. Eventually, they lead you to the basement of a lavish Palladian villa. Taste the wines and enjoy a light snack featuring the typical flavors of Treviso province. After this memorable day, re-board your coach and return to the pier.
